Mr Richard Ebbage
Deputy Head Academic (Seniors)

The awarding of a scholarship is a significant moment for both the pupil and the school. From the perspective of the pupil, it is a recognition of the significant progress they have made in the scholarship area up to that point and should be used as a springboard to develop further still. From the school's point of view, it is a celebration of the strength and diversity of our community and a commitment to both use the human capital at our disposal and ensure this is harnessed and built upon.

Scholarships are offered in Year 6 for entry into Year 7 and last for the duration of the pupil's time at the school. Contained in this Scholars' information guide are both the 'expectations' of and 'opportunities' expected by our Scholars in each of the scholarship areas. In general, Scholars will be expected to participate in the area(s) they have been awarded a scholarship. In return, they will be provided with an enhanced offering in that area which will help in expanding knowledge and skills. We will also aim to recognise Scholars through honours boards, lapel pins, and invitations to special events such as a Scholars' dinner.

We look forward to working with our Scholars and seeing how they develop through their time in the Seniors. There will be a check in at least once per year where targets will be set and progress assessed. This will be communicated with parents. Please have a read of this document and get in contact with the Scholarship lead in specific areas if you have any further questions.

2 OVERVIEW

Crosfields scholarships are awarded to pupils who show outstanding ability, potential and flair in one of the four areas: Academic, Sport, Creative and Performing Arts or All Rounder.

Pupils are able to apply to be assessed in up to two scholarship areas but would typically be awarded one scholarship. Those awarded a scholarship will be offered a package of mentoring in the chosen area as well as a discount on fees. In return for this, pupils will be expected to contribute significantly to that area of school life.

Scholarships run for the duration of the time pupils remain at the school. It is extremely important that only children who are very likely to take up an award are entered for this process so please do check the criteria carefully and speak to staff associated with particular areas if you are unsure.

A limited number of Crosfields scholarships will be awarded to internal and external candidates for entry in to Year 7. Pupils must be registered to join Crosfields School to be able to apply for a scholarship.

Entry to Year 7 is the only point at which scholarships are offered. For pupils who missed out on an award at this time, discretionary Head's Awards may be offered to those who show exceptional dedication and outcomes through Years 7 & 8. The Award is effective from the beginning of Year 9.
